The recording details view provides a deep dive into a specific user session. It includes a 'Session insights' section with AI-powered analysis, such as 'The visitor accessed the Privacy Policy page directly from the homepage, with the page loading in under a second.' and 'Shortly after arrival (00:01), two JavaScript errors occurred related to restricted access to localStorage and document.cookie due to sandbox settings.' The main part of the view is a video player showing the user's perspective, with a timeline at the bottom indicating the session duration from 00:01 to 00:06.
